🕒 Part time/Full time

👤 Ken Kretschmann

About us 🐱

Our [Mietz App](#) revolutionizes the rental process! No more endless emails, no more annoying paperwork and above all, finding or renting an apartment quickly and easily is our mission. Our software brings the fun back to apartment hunting for private individuals and accompanies professional landlords in the digitalization and automation of their processes.

Our offer 🍷

- Exciting projects and challenging tasks with plenty of room for creativity and personal responsibility
- A motivated, young and dynamic [Team](#) from all over the world
- Development and promotion opportunities
- Drive for professional & personal growth in an expanding company
- Beautiful office in the heart of Prenzlauer Berg
- Creative thinking and new opinions are welcome
- Insight into the start up world & access to our network
- Unique insight into external and internal processes of a company
- Being actively involved in shaping the success of the company
- An attractive salary and flexible working hours

Your Tasks 🐱

- Be the design lead in the business development process
- Shape the product strategy together with our CPO
- Be an active designer of the design processes
- Take responsibility for: Concepts, wireframes and user flows, UI designs and prototypes.

- Solve complex user problems by conducting UX research and performing usability tests and optimizations

Your Skills 🏆

- Experience in the visualization of ideas and concepts
- Deep understanding of figma, graphics and video editing
- Experience across products and platforms: B2C, B2B, web and mobile apps
- Independent and goal-oriented approach to work
- High level of motivation, initiative and team spirit
- Enthusiastic about innovation, technology and designs
- Fluency in English or German
